

Streamlined Product Training and CE Courses

Easy to Use. Available Anytime.

Hill-Rom, the innovator in patient care technology, now offers you online product-specific training that helps maximize the benefits of our products. View these trainings or complete and track your CE requirements from any computer in any location, at your convenience. The only requirements — Internet access and a user name and password provided free of charge to Hill-Rom customers.

These online product courses offer engaging patient stories and active participation, giving you the same high standard of in-person courses, but from the location of your choice. Engage in a web-based CE course and ease the burden of finding time to maintain your qualifications. All of these benefits are offered by Hill-Rom through Learning Management System (LMS) software, that allows you to assign courses to learners and track their completion.

At a Glance:

- Delivers consistent training from person to person
- 30 minute product training modules covering critical topics
 - Skill checks for each critical topic
 - Immediate access to valuable resource documents
- Convenient way to meet CE requirements
 - Narrated instruction
 - Print out certificate upon completion
- Courses delivered via Learning Management System (LMS) software
- Personalized management of product training and CE requirements

With patient safety and caregiver efficiency in mind, Hill-Rom partnered with HealthStream, a healthcare-specific learning solutions company, to bring ease to continued education for healthcare professionals.
