

Introduction

Hill-Rom, an innovator in patient care technology, now offers CE courses online through HealthStream, a Learning Management System for healthcare. These online CE courses provide the same high standard of Hill-Rom's in-person CE courses, but from the location of your choice.

Key Benefits

The following are key benefits of the Hill-Rom eLearning courses:

- Available to any hospital in the United States
- Web-based; accessible 24/7
- Delivered via HealthStream
- Learners print out a certificate upon completion
- Completion records maintained by HealthStream

Course Offering

The following courses are available immediately:

1. **Science of Surfaces (1.0 CEU)** – This course will help you identify the factors that contribute to skin breakdown and how surface design impacts these factors. You will also learn how to determine whether a surface is performing as intended to provide effective therapy.
2. **Air Fluidized Therapy: A Unique Technology (1.0 CEU)** – This course will help you to understand the design and mechanism of action of Air Fluidized Therapy. You will learn to recognize how Air Fluidized Therapy affects the major contributing factors of pressure ulcers (pressure, shear, friction, moisture and temperature). You will also be able to identify the clinical applications and benefits of Air Fluidized Therapy including appropriate patient selection and outcomes.
3. **Bariatric Skin and Wound Assessment (1.0 CEU)** – This course will help you to understand how to conduct a skin and wound assessment for bariatric patients.
