

Hill-Rom® 900 bed with 3/4 length siderails

Simply efficient

Features and benefits

One-Touch Side Egress positions the bed for safer and easier bed exit

AutoContour™ and SlideGuard™ minimise patient migration in bed, reducing abdominal compression during bed articulation

EasyChair™ and flat position function offers patients the ability to quickly reach a comfortable seated position

Low height indicator warns the caregiver if the bed is not in the lowest position, contributing to a safer patient environment

Brake-off indicator reminds the caregiver to engage brakes, ensuring greater patient safety

Easy-to-read **Line-Of-Site™** backrest indicator assists in implementing caregiver protocols

Siderails incorporate a **double lock-out release**, preventing accidental lowering

5th castor facilitates easier bed transport in any direction

One-Touch Shock positioning flattens the upper deck and places the bed into a Trendelenburg position, should patient complications occur

Intelligent night light enhances operational safety for both patients and caregivers

Removable High Pressure Laminate (HPL) sleep deck ensures ease-of-use, with easier cleaning and disinfecting capabilities

Hill-Rom 900 bed with 3/4 length siderails

Double lock-out siderail release

Line-Of-Site backrest angle indicator

Pendant control with EasyChair and flat position function and optional low height indicator
