## Feature

### IntelliDrive® Powered Transport:
- Allows a single caregiver to easily transport patient in bed
- Optional
- Optional

### Advanced Three Mode Bed Exit System (Patient Position Monitor):
- Bed exit system with three different sensitivities
- Optional
- Optional

### Emergency CPR:
- One-step CPR flattens the frame and max inflates the air surface
- +
- +

### Brake Alarms:
- Alerts caregiver when the bed is plugged in and the brake is not set
- +
- +

### Seat Deflate:
- Seat and foot deflate offers low bed height for easier exit
- Optional
- Optional

### Turn Assist:
- Uses the bed’s pressure redistribution surface to help turn the patient, making it easier to perform linen changes and wound checks
- Optional
- Optional

### CLRT and Percussion & Vibration:
- Integrated continuous lateral rotation therapy and percussion and vibration modules
- Optional
- Optional

### Preliminary Tilt Table:
- Extends Reverse Trendelenburg to achieve 20° to gradually acclimate your patient to the upright position
- +
- +

### FullChair® Position:
- One-button FullChair® position means patients are up in upright FullChair® position with dependent leg positioning for “up in chair” orders
- +
- +

### Chair Egress with Stand Assist:
- Use the bed to help stand heavier or less sturdy patients
- +
- +

### Integrated Scale:
- Optional
- Optional

### Battery Backup:
- Backup for all bed articulation (high/low position, head-of-bed, knee section)
- (Dual Electric and Manual Foot Pedal)
- (Dual Electric and Manual Foot Pedal)

### Point-of-Care® Siderail Controls:
- All caregiver controls are conveniently located in a central location, on both sides of the bed, where patient and caregiver interaction occurs
- +
- +

### Head-of-Bed Compliance:
- Multiple digital head-of-bed angle indicators and a head-of-bed alarm make it easier to maintain head-of-bed compliance
- (Able to store up to 8 days of statistics)
- (Able to store up to 8 days of statistics)

### Drop Down Siderails:
- One handed single action siderail operation
- +
- +

### Boost® One-Button Function:
- Puts the bed in the ideal position for patient repositioning
- +
- +

### FlexAfoot™ Mechanism:
- Allows caregiver to customize via siderail controls the overall length of the bed and mattress, in any bed position (including chair position) to fit the patient
- +
- +

### Ability to send data to Nurse Call, EMR or other Clinical Applications:
- Optional
- Optional

### Fully Integrated Surface:
- Surface automatically adjusts to the patient’s weight, size, movement and to the head-of-bed articulation, to improve patient comfort
- Optional
- Optional

### Advanced Microclimate® technology:
- Helps reduce heat and moisture at the patient sleep surface interface
- Optional
- Optional

### Status Board Nurse Call Display via smart beds:
- Optional
