Hill-Rom is a leading global medical technology company with approximately 10,000 employees worldwide. We partner with health care providers in more than 100 countries by focusing on patient care solutions that improve clinical and economic outcomes in five core areas: Advancing Mobility, Wound Care and Prevention, Clinical Workflow, Surgical Safety and Efficiency, and Respiratory Health. Around the world the people, programs, and products of Hill-Rom work towards one mission: Enhancing outcomes for patients and their caregivers.

Hill-Rom is committed to the concept that mobilising people early and supporting their independence, improves life - in the hospital and at home.

The AvantGuard 1600 is intended for use in medical, post-operative and obstetric wards administering general care for adult patients.

Class I
