Compella™ Bariatric bed
Advancing Bariatric Care

Features and benefits

Maintain bariatric patient dignity by providing a care setting in a bed designed to resemble a standard hospital bed.

Reduce caregiver strain and workload through one-button powered width expansion and FlexFoot™ allowing for quick configuration of the bed.

Drive efficiency and ease of use with SlideGuard™ designed to minimise the occurrence of the patient sliding down in bed.

Ensure safe patient care with the optional IntelliDrive™ XL Power Transport, which offers caregivers the ability to move the bed and patient with ease.

Optimise patient care with head-of-bed alarm and optional 3-mode bed exit alarm that alerts caregivers of any safety concerns.

The sturdy siderails, low bed position combined with seat deflate and ergonomic controls provide patients the confidence to safely enter and exit the bed with greater independence and dignity.

The in-bed scale means caregivers can monitor patient weight from the comfort of the bed.
**Compella Bariatric bed**

One-button powered width expansion

Optional: IntelliDrive XL

Point-of-Care™ caregiver controls

Optional: Patient pendant control
