Hill-Rom® 900 bed with 3/4 length siderails
Simply efficient

Features and benefits

**One-Touch Side Egress** positions the bed for safer and easier bed exit

**AutoContour™ and SlideGuard™** minimise patient migration in bed, reducing abdominal compression during bed articulation

**EasyChair™ and flat position function** offers patients the ability to quickly reach a comfortable seated position

**Low height indicator** warns the caregiver if the bed is not in the lowest position, contributing to a safer patient environment

**Brake-off indicator** reminds the caregiver to engage brakes, ensuring greater patient safety

Easy-to-read **Line-Of-Site™** backrest indicator assists in implementing caregiver protocols

Siderails incorporate a **double lock-out release**, preventing accidental lowering

**5th castor** facilitates easier bed transport in any direction

**One-Touch Shock positioning** flattens the upper deck and places the bed into a Trendelenburg position, should patient complications occur

**Intelligent night light** enhances operational safety for both patients and caregivers

**Removable High Pressure Laminate (HPL)** sleep deck ensures ease-of-use, with easier cleaning and disinfecting capabilities
Hill-Rom 900 bed with 3/4 length siderails

Double lock-out siderail release
Line-Of-Site backrest angle indicator
Pendant control with EasyChair and flat position function and optional low height indicator
