Safety Instructions

- Read the instruction guides for the lift and lifting accessories before use.
- Plan the lifting operation carefully.
- Check to ensure that the sling’s strap loops are correctly fastened to the sling bar hooks when the sling strap is extended, but before the patient is lifted from the underlying surface.
- Maximum load: 200 kg (440 lbs)

To retain max. load, it is essential to use accessories rated for the same max. load or greater.

IMPORTANT!
This quick reference guide does not replace the lift’s instruction guide, which can be downloaded at www.liko.com.

Ergonomics

- Never lift manually – let the lift do the lifting.
- Take it easy. Work calmly and methodically.
- Don’t strain your back! Work in a walking stance with your back straight.
- Use the bed’s raising and lowering functions.
- Reduce the lever effect. Work close to the patient and the lift.

Cleaning

When necessary, clean the lift with a moist cloth, using warm water or disinfectant.

Simple Troubleshooting

Check to ensure that:
- the emergency stop is not pressed in, see 3
- the battery of the lift is charged
- Check that the charger cable is not connected to an electric outlet.

Other Quick Reference Guides

Quick reference guides for Liko’s lifts and slings are available for downloading at www.liko.com.

1. Handcontrol
   - Up / Down, adjust the lifting motion up / down, (slowly)
   - Out / In, adjust the base width
   - Read the instruction guide for more information.

2. Operation Panel
   - Up / Down, adjust the lifting motion up / down, (slowly)
   - Out / In, adjust the base width
   - Indicator lamps (LDS)
     1. Hand control active
     2. Overload
     3. Service indication
     4. Expected Life Time (ELT)
   - Read the instruction guide for more information.

3. Emergency Stop
   - Activate:
   - Reset:
   - An unbalanced load increases the risk of the lift tilting over!
   - Read the instruction guide for more information.

4. Mechanical Emergency Lowering
   - Activate:
   - Resetting the lifting range:
   - Read the instruction guide for more information.

5. Electrical Emergency Lowering / Raising
   - UP
   - DOWN

6. Locking the Wheels
   - Unlock
   - Lock

7. Latches
   - Read the instruction guide for more information.

8. Avoid Unbalanced Load!
   - An unbalanced load increases the risk of the lift tilting over!
   - Read the instruction guide for more information.

9. Charging the Batteries
   - Charge the lift regularly after use.
   - The lift does not function during charging.
   - The lift cannot be charged with the emergency stop engaged.
